Thursday Dorchester June - 1861  
Dear Friend, J. Beckett  
It is with  
pleasure I now write you these few  
lines to let you know that we are  
all well at present. Hoping these  
few lines will find you the same  
we got here all safe except we got  
a good ducking. The surf was about  
an hour and a half high when  
we got home. There is a going to be  
a camp meeting here next month  
and I guess we will go. I have not  
been picking strawberries yet. I  
must conclude I cannot think of any  
more this time write as soon as you  
receive this adieu for this time. I remain  
yours through life, Delilah Whitman

Please to excuse all scribbling for  
my pen is so bad I cannot hardly  
write James Beckett

**LATEST INFORMATION.**

TORONTO, Jan. 24th, 1905.

**MEXICAN EXPLORATION.** Engineer Selby, in charge of the mining properties of this Company, at Etzatlan, Mexico, reports three very rich strikes in the San Domingo Mine, which will increase their daily output from \$2800 per day to at least double that amount. *This favorable information regarding the San Domingo properties, of which the Mexican properties are a direct extension, warrants the Mexican Co. in now going ahead on their properties, and Mr. Selby has been instructed to proceed at once with the driving of the tunnel to cut the main fissures of the ledge and from this time on there will be no delay in forcing the development work of the mining department as fast as possible.*

**HOMESTAKE EXTENSION.** The steam drilling outfit has been installed in the tunnel—which is now in 200 feet—and is working fine. Assays are running from \$5 to \$10 a ton. The vein is fully 400 feet wide—and with these values it will be an enormously profitable proposition.

**OSAGE OIL.** Owing to the extremely cold weather, (12 degrees below zero, which is most unusual for that section), work has been abandoned for nearly two weeks. The weather has now moderated and everything is moving along in first-class shape. The wells on leases 198 and 67 are pumping fully up to the average, as expected. The pipeline is taking care of all the oil produced. Well No. 3, lease 67 is expected in this week. Dividends will be at the same rate as December; although it is probable that the February dividends will be at a rate considerable higher. Owing to the delay, by reason of the cold weather, the officers of the company deemed it advisable not to increase the dividend rate for January.

**CASA GRANDE.** Telegram received from Tucson, states that the parties negotiating for the purchase of the property would deposit \$30,000 with the Consolidated National Bank, upon receipt of proper authorization for sale. These papers will all be passed on at the Annual Meeting on the 31st.

**DIVIDENDS FOR 1905.** From present indications, beginning with February, one company can be added to the Dividend List each month, during practically all the year.

Reports of Annual Meeting, to be held on January 31st, will be mailed all stockholders during February.
