Item 648-01 – **1789 New York letter to Quebec (wheat, beer, distillery)** – 1789, business folded letter from New York to Quebec. Carried outside the post by the sailing vessel “Smith”. The letter is from Hoffman & Co. to the wheat merchant Johnston and Purss Co. In the 1770’s and 1780’s, Johnston and Purss operated from Quebec and engaged in the wheat trade, but a large share of their commerce with New York and the West Indies apparently consisted of a preparation called “essence of spruce for making beer,” the discovery of which they attributed to Johnston’s brother-in-law Henry Taylor, the owner of a Quebec distillery. Though privately carried and not postally handled, this letter offers a fascinating glimpse into 18th century cross-border trade and the early roots of North American brewing history. \$500.00

Item 648-02 – **Signed by Joint Premier Robert Baldwin in office** – 1848, stampless folded letter, datelined (Canadian Premiers') Secretary's Office JU 28 48, mailed from Montreal paid 9d to Quebec. Handwritten secretarial letter signed by Robert Baldwin (1804-1858) while in office as Joint Premier of Province of Canada and Attorney General for Canada West. The letter authorizes travel expenses for Hon. Mr. Justice Edward Bowen to hold Circuit Court proceedings in Portneuf, a county near Quebec City. This document reflects Baldwin's active role in the administration of justice during his second term as Joint Premier (1848–1851), a position he shared with **Louis-Hippolyte Lafontaine** of Lower Canada. Together, Baldwin and Lafontaine led the first responsible government in the Province of Canada. Their landmark legislation, the Rebellion losses bill, sought to compensate Lower Canadians for damages incurred during the 1837–1838 Rebellion. Its passage provoked fierce opposition from Anglo-Canadian Tories, culminating in the burning of the Parliament Buildings in Montreal on April 25, 1849. Less than ten months after this letter was signed. Edward Bowen (1780–1866), the recipient of the warrant, was a prominent bilingual lawyer, judge, and colonial official. He belonged to the elite class that, alongside the British commercial bourgeoisie, dominated executive power and state patronage in pre-Confederation Canada. This letter bears an extremely scarce in-office initials and signature of Robert Baldwin, a foundational figure in Canadian political history and a champion of democratic reform. \$1,350.00 **SOLD**

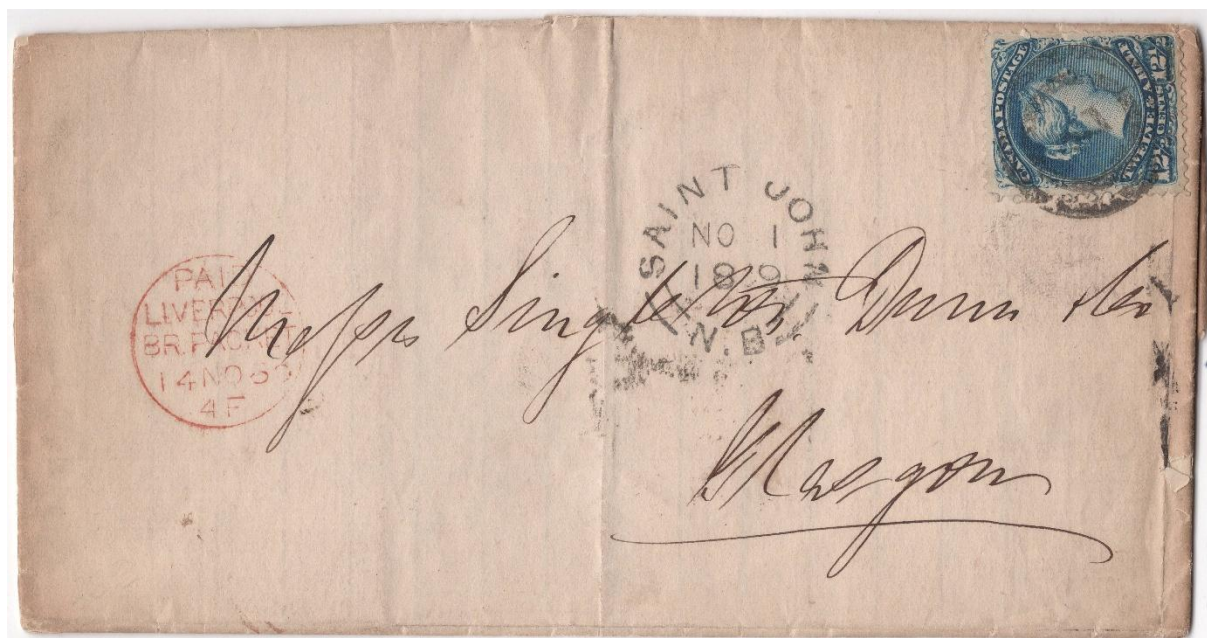

Item 648-03 – **No.10 reddish purple - Ingersoll UC to New York** – 1859, 6d Consort reddish purple on thick soft, No.10 with fabulous boardwalk margins all around, tied by Ingersoll UC broken circle on cover paying 6d cross border letter rate to New York. Item 648-04 – **March 26 1868** – 1¢ Decimal tied by Huntingdon LC double broken circle on unsealed cover paying 1¢ circular rate to Rockburn, Hinchinbrooke, Québec. Interestingly, although stamp cancelled with a datestamp and sent to a highly unusual destination in southern Quebec, this represents the latest recorded usage in period that I've encountered, just days before the introduction of the Large Queens AP 1 68. Minor tear at upper left. \$150.00

Item 648-05 – **J&T Bell Boots and Shoes cameo advertising** – 1860, 5¢ (printing order 4, paler brownish orange red) tied by Montreal CE Berri duplex cancel on J&T Bell Boots and Shoes cameo advertising cover paying 5¢ letter rate to New Glasgow CE. Item 648-13 – **First day August 10 1897 Bickerdike in Toronto** – 1897, 3¢ Jubilee tied by Toronto Bickerdike machine cancel, die F, on Taylor Scott & Co. Woodenware advertising cover paying 3¢ letter rate to Waubashene (b/s). This 7-15 flag cancel dated August 10, 1897, is on the first day of Bickerdike machine usage in Toronto. According to Rob Leigh's research, this specific dater hub and cancelling die combination was employed exclusively on August 10 and 11, with only seven recorded covers known from this brief two-day period. Ex Paige. \$250.00 **SOLD**

Item 648-14 – **2¢ drop St. Henri de Montreal** – 1897, 2¢ Jubilee tied by St. Henri de Montreal Que. cds on corner card cover from Merchant's Cotton Co., paying the 2¢ drop letter rate. A clean and attractive local usage with minor upper left tear, not detracting from overall appeal. \$75.00

The EN14 envelope is exceptionally difficult to find postally used. This example is more than very scarce. \$400.00

Item 648-17 – **Unauthorized 2¢ city to suburb rate** – 1898, 1¢ Leaf pair tied by Montreal Bickerdike machine cancel on cover paying the unauthorized 2¢ city to suburb letter rate to Cote St. Paul (b/s). Situated just south of Saint-Henri and shaped by its proximity to the Lachine Canal. The P.O. Dept Order #35 granting the 2¢ suburb to city rate did not authorize letters to pass from city to suburb at the same rate. Opening tears. \$100.00 **SOLD**

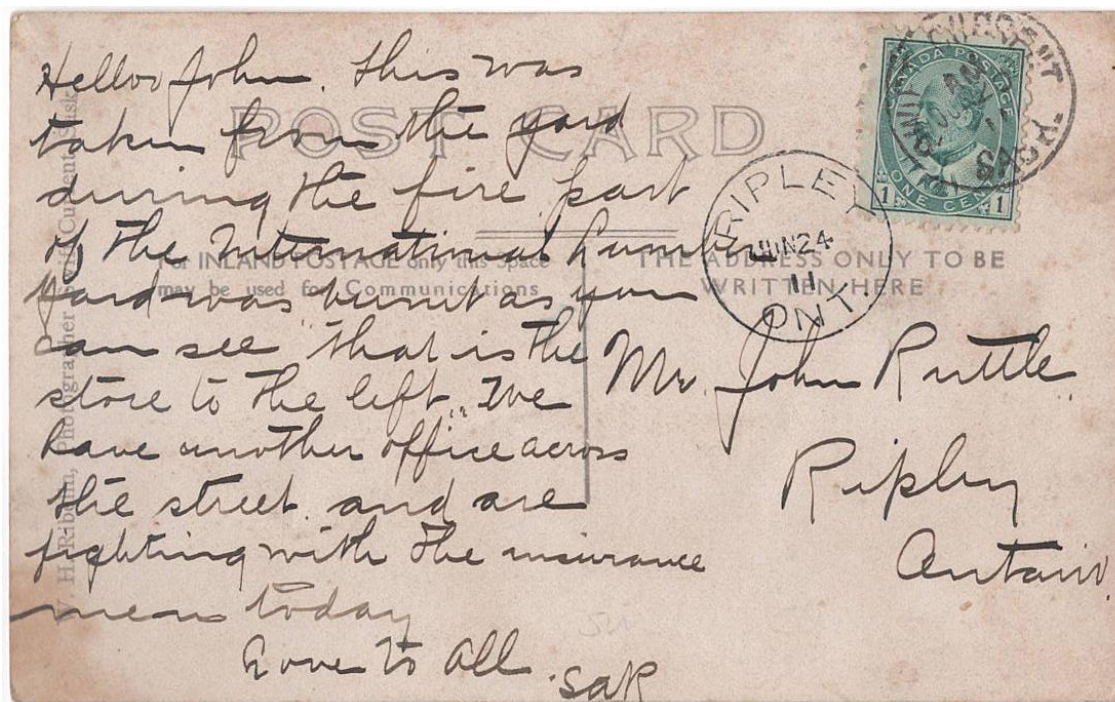

Item 648-18 – **Montreal experimental machine cancel** – 1902, 2¢ on 3¢ stationery envelope mailed from Three River Que paying 2¢ letter rate to Montreal. Reverse bears an experimental machine, hub used alone as a receiver, known as "Experimental X2". A rimless marking tentatively identified though with some skepticism as the earliest dater hub attributed to Geary, an American machine manufacturer. This marking is recorded in use only between January 6 and February 15, 1902. \$100.00 **SOLD**

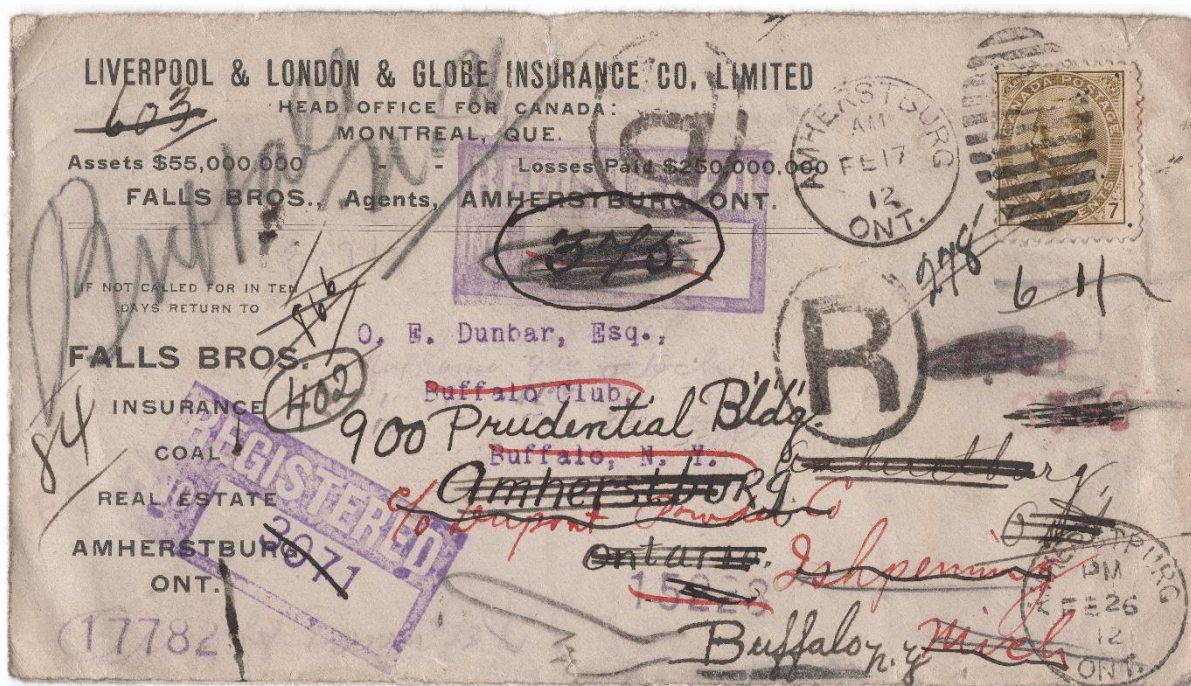

Item 648-19 – **General Delivery precursor marking** – 1899, 2c Numeral tied by St. John NB cds on cover paying the 2c letter rate to Toronto (b/s). Marked “Not Found” and “Not Called For” with the octagonal Toronto Not Called For, then redirected to the General Delivery office featuring the very elusive boxed “G.D.” marking, a rare precursor to later forms. Then, three weeks later, the cover was forwarded to the Toronto Dead Letter Office. An exceptional delayed cover with the rare G.D. marking, only 2 or 3 handled in the past 25 years. \$200.00

Item 648-20 – **Henry Bourassa (MP, father of French-Canadian nationalism)** – 1903, House of Commons cover mailed from the House with Ottawa Free to Notre-Dame de Quebec (b/s). This cover bears the initials of Henri Bourassa, a prominent figure in Canadian political history and MP for Labelle County, Quebec. Elected to the HoFC in 1896 as an independent Liberal, he resigned in 1899 in protest against the deployment of Canadian troops to the Second Boer War. He was re-elected shortly thereafter. He was a vocal critic of Prime Minister Wilfrid Laurier, whom he accused of capitulating to British imperial interests, Bourassa founded the *Canadian Nationalist League* in 1903. The League sought to cultivate a pan-Canadian nationalist sentiment among francophones, advocating for Canadian autonomy within the British Empire and opposing political dependence on either Britain or the United States. A very scarce Bourassa cover and the only second example that I have seen. \$200.00

It was subsequently returned to sender via the Montreal Dead Letter Office where it was officially opened to identify the sender. The envelope was then re-sealed using three OX2 DLO 2nd Issue stamps (*bluish paper*), each tied by Montreal DLO cds. A striking DLO crown wax seal completes the official resealing. 2016 VGG certificate accompanies confirming genuine usage. CABLE ADDRESS: "VILHJALMUR, NEW YORK"

August 5, 1926.

Dear Professor Prince:

I am very glad to hear it is you that are rewriting the ewibos wool paper. You will do it more sympathetically and in every way better.

One suggestion about the re-writing, which I may have forgotten to make: Please have it clear that much of the wool experimented with at Leeds was furnished me for that purpose by Captain Harry Toke Munn, who had secured it from North Devon when he had a trading station at Pond's Inlet - the one he later sold to the Hudson's Bay Company.

I wish I were with you in Gaspé where it is doubtless cool. The papers say people have been dying here with the heat and humidity, and it is easy to believe. I stand the heat better than most, it appears, but I don't seem to be able to work much in it. And there are heaps of waiting work.

The pleasantest of summers to you and your whole family.

REPLY TO 17 GROVE STREET, NEW YORK

May 19, 1926.

Dear Professor Prince:

A study of ewibos wool was made by the Textiles Department of Leeds University under the direction of Professor Alfred F. Barker, and a report on it made by one of his assistants, Mr. Frank H. P. Atkinson, who was chiefly in charge of the work. This report was sent to your Committee a long time ago and there should be attached to it certain correspondence on the same subject with yourself. The author of the report and the Textiles Department of Leeds University, as well as myself, are interested to know what is happening to it. I should appreciate it very much if you would let me know.

As pointed out in our previous correspondence, the report would need some re-writing since the young man who formulated it indulged in some eulogy of himself which was scarcely pertinent to the subject. I understood at the time that you would edit the report from the point of view of cutting out praise and still leaving whatever was historically or otherwise pertinent.

I hope you enjoyed your visit to the Old Country.

E. Prince, Chairman of the Publication Committee for the Canadian Arctic Expeditions. Both letters reference “wool,” with the second highlighting Captain Harry Toke Munn’s trading operations at Pond Inlet. A real photo postcard, taken in Victoria, BC in June 1913 and mailed from Nome, Alaska. The image captures Stefansson standing on the right in a bowler hat, accompanied by two unidentified men. The scene is set just below the staircase leading to the Union Club of Victoria, near the iconic Empress Hotel. The postcard bears a handwritten message and signature from Fritz Johansen, a scientist with the Southern Party of the Canadian Arctic Expedition under Dr. Rudolph Martin Anderson. Johansen writes to the Expedition’s accountant, requesting that \$43.65 be sent to his lawyer in Denmark, referencing financial matters related to the mission.
